

RIVER COMPLEX POST FIRE PROJECT

Open House Style Public Meetings

The Salmon/Scott River Ranger District is planning a post-fire risk reduction project following the 2021 River Complex Fires. Stop by and see us anytime during one of the days/times specified below if you want to provide feedback or ideas for post-fire project planning, or to learn more about the planning process the Forest must follow to make these projects happen.

This is an opportunity to make your voice heard early on in the process, this will not be the only opportunity to comment or review the project plans.

These discussions will be focused on post-fire recovery and moving forward. This is not an after action review of the fire or suppression tactics during the fire.

Callahan:

**Gravel Parking Area Near the
Emporium**

Friday, February 25:

4:00 to 6:00

Saturday, February 26:
